

Year 6 Comprehension 5: Emily's trip to the Moon

Once upon a time, there was a girl named Emily who loved looking at the night sky. Every night before bedtime, she would gaze out of her bedroom window and wonder what it would be like to visit the Moon.

One night, as Emily slept peacefully in her cozy bed, she had the most extraordinary dream. In her dream, she found herself standing in a magical garden filled with glittering stars. The garden seemed to stretch on forever, and in the distance, she saw a silvery path leading up into the sky.

Curious and excited, Emily followed the path. To her surprise, with every step she took, she felt lighter and lighter, as if she was floating. Before she knew it, she was soaring through the sky, higher and higher, until she reached the Moon itself.

As Emily landed gently on the Moon's surface, she looked around in awe. The Moon was not gray and boring like she had imagined. Instead, it was a beautiful place with soft, powdery ground that sparkled in the moonlight. Emily could see tall mountains and vast plains stretching out before her.

Just then, she noticed a friendly-looking creature hopping towards her. It was a Moon Rabbit, with soft, fluffy fur and twinkling eyes. The Moon Rabbit invited Emily to explore the Moon with him, and together they set off on an adventure.

They climbed up the tallest mountain, where they could see Earth shining brightly in the sky. Emily waved at her home, feeling both amazed and a little homesick at the same time. The Moon Rabbit showed Emily how to bounce in the low gravity, and soon they were hopping and skipping across the Moon's surface like two best friends.

They discovered Moon flowers that glowed in different colors and Moon lakes that shimmered like diamonds. They even met a group of friendly Moon creatures who sang songs about the stars and taught Emily their dance.

After what felt like both a few moments and forever, Emily knew it was time to return home. The Moon Rabbit led her back to the silvery path, and Emily waved goodbye to her new friends with a promise to visit again someday.

As Emily woke up in her bed the next morning, she couldn't stop smiling. She knew that even though her trip to the Moon had been a dream, the memories and friends she made there would stay with her forever.

From that day on, Emily continued to gaze at the night sky with wonder, knowing that the Moon was not just a distant place, but a magical world full of adventures waiting to be explored.

And whenever she closed her eyes, she could still feel the gentle bounce of the Moon's surface beneath her feet, reminding her that sometimes, the most incredible journeys begin with a dream.
