

Year 3 Comprehension 6: A day at School.

Once upon a time, in a cozy little town, there lived a brother and sister named Jack and Emily. They were excited about their day at school and couldn't wait to see what adventures awaited them.

Early in the morning, Jack and Emily hurriedly got dressed and had a delicious breakfast with their mom and dad. They packed their school bags with colourful pencils, notebooks, and their favorite storybooks. With a wave goodbye to their parents, they set off on their journey to school.

As they walked hand in hand, Jack and Emily noticed the bright flowers blooming along the way. They stopped to admire the butterflies fluttering in the air. Emily giggled as she spotted a ladybug crawling on a leaf. They knew it was going to be a wonderful day!

When they arrived at school, their teacher, Miss Johnson, greeted them with a warm smile. She was kind and friendly, making the children feel happy and safe. Miss Johnson started the day by reading a funny story to the class. Everyone laughed and clapped their hands with joy.

In English class, they learned about nouns, verbs, and adjectives. Miss Johnson explained that nouns are names of people, places, and things, like their pet dog, Max, or their favorite toy, Teddy. Verbs, she said, are action words, like running, jumping, and singing. Adjectives describe things, like big, small, or colorful. Jack and Emily had fun thinking of words to describe their favourite things.

Next, it was time for math class. The children sat in a circle as Miss Johnson brought out colourful blocks and counting cubes. They learned how to add and subtract numbers using these fun tools. Jack and Emily enjoyed counting the blocks and playing math games with their classmates.

During lunch break, Jack and Emily sat together at a picnic table with their friends. They shared their sandwiches and giggled at silly jokes. After lunch, they played on the swings and slides, their laughter filling the air. Jack showed off his basketball skills while Emily danced around with ribbons, making everyone smile.

In the afternoon, they had an exciting science experiment. Miss Johnson brought out jars filled with water, oil, and food coloring. She showed them how the colors mixed and made beautiful patterns. Jack and Emily eagerly took turns pouring and mixing the colors, creating their own vibrant masterpieces.

At the end of the day, Jack and Emily sat on the colorful rug for storytime. Miss Johnson read a magical tale about a brave princess and her adventures in a faraway land. The children listened intently, their imaginations soaring high.

With their school day coming to an end, Jack and Emily gathered their belongings and waved goodbye to their friends. They walked home, talking about all the wonderful things they had learned and experienced that day.

As they entered their cozy house, their parents eagerly listened to their stories, proud of their curiosity and enthusiasm. Jack and Emily knew they were lucky to have such a fantastic day at school, filled with learning, laughter, and love.

With hearts full of joy, they drifted off to sleep, excited for the adventures that awaited them in their dreams, knowing that tomorrow would bring another day of fun and learning at school.
