

## Year 2 Comprehension 7: Choose Wisely

Once upon a time, in a faraway galaxy, there was a young girl named Charlie who loved exploring the stars and dreaming about space adventures. One day, as she was playing in her backyard, a mysterious spaceship landed right in front of her!

Out of the spaceship came two groups of space warriors – the Jedi and the Sith. The Jedi were kind and used their powers to protect and help others. The Sith, on the other hand, were tempted by the dark side of the Force and sought power and control.

Both the Jedi and the Sith wanted Charlie to join their ranks. They said she had a strong connection to the Force, which made her special. Charlie was confused. She didn't know which path to choose.

The Jedi showed Charlie how they helped people in need and brought peace to the galaxy. The Sith promised her great power and adventure, but their methods seemed dark and dangerous.

Charlie thought long and hard about her decision. She knew that choosing the Jedi meant doing what was right, even if it wasn't always easy. And though the Sith offered excitement, she didn't want to be tempted by the dark side.

In the end, Charlie made her choice – she wanted to be a Jedi. She wanted to use her powers for good and bring happiness to others. The Jedi welcomed her with open arms, and she began her training as a young Padawan.

As she learned to control the Force, Charlie realized that she had made the right decision. She felt a sense of belonging among the Jedi, and her heart was filled with joy as she helped others and explored the galaxy.

From that day on, Charlie knew that being a Jedi was her destiny. And as she looked up at the stars every night, she knew that her space adventures were just beginning.

## Multiple Choice Questions

1. What is the name of the young girl in the story?

- a) Sarah
- b) Charlie
- c) Emma
- d) Lily

2. What did Charlie love dreaming about and exploring?
