Year 1 Comprehension 4: The Kindness Garden

Once upon a time, there was a school with a big empty space. The students had an idea to make it special. They decided to create a Kindness Garden!

They brought colourful flowers, shovels, and buckets. Everyone worked together, digging holes and planting flowers with love. They watered the flowers and gave them sunshine every day.

In the Kindness Garden, there was a sign that said, "Plant Kindness, Grow Love." The students understood it meant they should be kind to each other, just like they were to the flowers.

Every time someone did something nice, they added a shiny pebble to the garden. The pebbles sparkled like their kind actions.

As the days went by, the garden grew not only with flowers but also with friendship and smiles. The students felt happy knowing they made their school a better place, one kind act at a time. And the Kindness Garden became the most beautiful spot in the whole school.

Multiple Choice Questions

1. What did the students want to create in their school?

A) A science project

B) A Kindness Garden

C) A new playground
