Year 2 Comprehension 19: The Mischievous Cloud

Once upon a time, in a bright and sunny village, there lived a cloud named Sunny. But Sunny was not like other clouds. It was a mischievous cloud that loved to play tricks on people by changing the weather.

One morning, the villagers woke up to a big surprise. The day that was supposed to be sunny turned into a rainy day! Everyone grabbed their umbrellas and raincoats and rushed outside. They laughed as they splashed in puddles and danced in the rain.

Sunny giggled high up in the sky, seeing all the fun it had caused. But as the day went on, Sunny noticed something. People were sad because their picnics and outdoor plans got ruined by the rain.

Feeling a little guilty, Sunny decided to make things right. It puffed out fluffy clouds and created a beautiful rainbow that stretched across the sky. The villagers oohed and aahed, forgetting about their ruined plans.

From that day on, Sunny learned that it's okay to be mischievous, but it's even better to do things that make others happy. And so, Sunny became a helpful cloud, bringing rainbows and sunshine to the village whenever they were needed. And everyone loved the silly cloud that knew how to spread joy in the sky.

Multiple Choice Questions
